Floggings by Logan as per the above Diary

From February 1828 to February 1829

1 x 300 given to John Hugh Parbery 26/8/1828, this name is not on the Moreton Bay Convict Register.

9 x 200 all given in October 1828, no more floggings after that date.

3 x 150

18 x 100

91 x 50 These were given in bulk i.e. 21x50 in 1 day

72 x 25 These also, i.e. 26x25 in one day

194 floggings in all = 10,400 lashes

There are no floggings listed after October 1828 when 8x200 were given (see below), even though the absconding continued. Did Logan change his methods of punishment, or did Spicer no longer record floggings?

Did Logan put them in the Mill Gang which was now operating?

On 15/10/28 5 prisoners were given 200 lashes each
And on 16/10/28 3 prisoners were given 200 lashes.

Note that although it was against Sydney regulations Logan used bullocks to plough in November 1828. On 27th August 1828 The Commandant, Mr. Frazer and Miss O'Beirne and 47 male prisoners went to the Bay to embark on the new schooner *Letitia Bingham* for Sydney.

On 13th October Logan returned from Sydney on the *Isabella*.

The floggings listed below were given 2 days later.

On 3/12/1828 apparently the wheat crop had failed and the settlement goes on half rations of flour.

Miss O'Beirne returned from Sydney aboard the *City of Edinburgh* on 23/1/1829.
